Education

Purdue University, Mitch Daniels School of Business

B.S. Integrated Business and Engineering (IBE), Expected May 2028

West Lafayette, IN

Aug. 2024 – Present

- Coursework: Financial Accounting, Managerial Accounting, Microeconomics, Statistics, Engineering Design.

Experience

Firmly

Product and Engineering Intern (fintech and e-commerce platform)

Remote

Jun. 2025 – Aug. 2025

- Shipped a PayPal checkout failure-recovery flow end-to-end: defined requirements with engineering, UX, and support across time zones, then replaced a generic error page with a guided recovery flow across ~15 payment edge cases.
- Built and tracked product metrics (error rate, recovery rate) via server-side logging to assess whether the fix worked; documented a 20+ test-case QA process adopted as the team standard.

Student Managed Investment Fund

Equity Research Analyst, ~\$400K AUM fund

West Lafayette, IN

Jan. 2025 – Present

- Built a 3-statement financial model in Excel (DCF, comps, sensitivity) for U.S. Bancorp and researched its competitive landscape and revenue drivers, recommending Buy at a \$57.35 target (roughly 11.5% implied upside) in a 20-page report.
- Distilled segment-level analysis into a 10-slide PowerPoint pitch and presented the thesis to a 30+ member investment committee, defending assumptions in live questioning.

Purdue Daniels School of Business Summer Externship

Timeline & Project Manager

Remote

Jul. 2026 – Aug. 2026

- Project-managed a 4-person team delivering a communications and marketing plan for a ~\$1.6M nonprofit client: ran discovery with the COO, set the timeline, and built a 156-row dated posting calendar across 4 content types and 5 audiences.
- Analyzed the client's website and social presence, quantified a roughly 25x gap between best and worst content styles, and turned it into prioritized recommendations for a non-technical executive.

Projects

India MSME Digital-Trade Exposure Dashboard

Sole builder, live for a policy researcher

github.com/veer-sanyal

2026

- Shipped a live tool that flags which of India's small-business service sectors are most exposed to a given digital-trade policy; computed every figure from source-linked WTO and Indian government data against a public decision log, catching a published figure off by roughly 3x.

STICK: AI-Powered Study Platform

Independent product build; sole developer, built with AI-assisted development

2026 – Present

- Shipped a deployed web app and a multi-step LLM pipeline (extract, classify, grade), placing a human review queue between the model and the user: 53 questions verified, 2 rejected, none unreviewed.

Leadership & Activities

Engineering Projects in Community Service (EPICS)

Communications Officer & Build Lead

West Lafayette, IN

Aug. 2025 – Dec. 2025

- Led a 7-person cross-functional team building a museum billboard prototype; presented design tradeoffs in two formal reviews to faculty, sponsors, and museum stakeholders.

Skills

Analytical & Presentation: MS Excel (3-statement modeling, DCF, comps, sensitivity analysis), PowerPoint

Product & Data: SQL/Postgres (built with), Python, Git/GitHub

AI: AI-assisted development (Claude Code), LLM pipeline design
