

Veer Sanyal

Sammanish, WA — 360-643-9424 — vsanyal@purdue.edu — linkedin.com/in/veersanyal

Education

Purdue University — Mitch Daniels School of Business

B.S. Integrated Business and Engineering (IBE) Expected May 2028

West Lafayette, IN

Aug. 2024 – Present

- Relevant coursework: Statistics, Managerial Accounting, Engineering Design & Project Execution

Experience

Firmly

Remote

Product and Engineering Intern

Jun. 2025 – Aug. 2025

- Owned a PayPal checkout failure-recovery feature end-to-end: defined requirements via user research, collaborated with engineering and support to translate pain-points into a shipped roadmap initiative.
- Instrumented server-side event logging (Node.js/Express, REST API) to track error rate and recovery rate; used metrics to drive data-informed iteration and validate feature impact in production.
- Ran competitive analysis on payment-flow UX across 5+ developer-facing tools; distilled findings into a structured product brief that aligned cross-functional stakeholders on prioritization.
- Established a repeatable QA workflow (edge-case matrix + release checklist) with Agile sprint ceremonies, reducing defect loops and improving release velocity.

Projects

StudyFlowForge (AI-Powered Study Planner) | *React, TypeScript, Node.js, Supabase, Gemini API* Feb. 2026 – Present

- Designed and shipped an LLM-integrated planner via REST API calls to Gemini; implemented token-efficient prompt architecture to surface personalized study plans from calendar event data.
- Conducted user interviews and synthesized pain-point data to define product strategy; shipped 18+ screens across 4 Agile sprints with measurable improvements in task completion rate and schedule adherence.
- Managed Git-based development workflow (branching, PRs, CI hooks) across a multi-contributor codebase; wrote product specs that bridged technical constraints with user-facing outcomes.

Leadership & Activities

Student Managed Investment Fund (SMIF)

West Lafayette, IN

Analyst

Jan. 2025 – Present

- Conduct market research and competitive analysis on public equities in a \$400K AUM real-money portfolio; synthesize findings into strategic recommendations for investment committee.
- Co-authored a 20-page equity report on U.S. Bancorp (NYSE: USB); led competitive analysis, risk assessment, and portfolio strategy sections; defended assumptions in committee meetings.

Engineering Projects in Community Service (EPICS)

West Lafayette, IN

Communications Officer / Build Lead

Aug. 2025 – Dec. 2025

- Led cross-functional coordination on a 7-person team; presented strategic planning updates and tradeoff analyses in two formal design reviews to faculty and external sponsors.
- Translated product requirements into build specifications; iterated on design decisions based on data from engineering checks and manufacturability constraints.

Skills

Product & Strategy: Product Roadmaps, User Research, Competitive Analysis, Agile/Scrum, Market Research

Technical: JavaScript/TypeScript, Node.js, Python, SQL (PostgreSQL), REST APIs, HTTP/DNS fundamentals, Git/GitHub

AI & Data: LLM integration (Gemini API), prompt engineering, data-driven metrics, server-side event logging

Tools: Figma, Jira, Confluence, Microsoft Excel & PowerPoint, Supabase
