Education

Purdue University — Mitch Daniels School of Business

West Lafayette, IN

B.S. Integrated Business and Engineering (IBE), Expected May 2028

Aug. 2024 – Present

- Relevant Coursework: Engineering Design & Project Execution, Statistics, Microeconomics, Managerial Accounting, Financial Accounting

Design Experience

Etsy Digital Products Shop

Remote

Independent Designer & Shop Owner

2023 – Present

- Designed and sold 50+ original digital products (printable and editable planners, habit and fitness trackers, travel checklists, intake forms) end-to-end as sole designer and operator.
- Built a cohesive visual system for each product line — custom layouts, color palettes, and typography in Adobe Photoshop and Illustrator — holding brand consistency across an entire product family.
- Produced full marketing media per listing — device mockups, thumbnails, multi-image galleries, and a product demo video — to drive conversions in a competitive marketplace.
- Delivered both fillable-PDF and print-ready versions of every product, balancing visual design with usability and print specifications.

Design Projects

Graphic Design Portfolio

2021 – Present

Adobe Illustrator, Photoshop, Lightroom

- Designed branding and full report layouts for two 10-page DECA business-plan competition papers — MYCOFIX (custom wordmark and molecular icon mark) and Green Torch Solutions (complete brand identity) — producing polished, competition-ready documents.
- Created original logo and brand-identity explorations for self-initiated concept ventures (BAGBABY, PAPER ELEPHANT), developing wordmarks, color systems, and overall visual direction.
- Retouched professional headshots at 300 PPI in Photoshop (layer masking, background compositing) and edited photography in Lightroom.
- Built vector illustrations and sports graphics, including a Purdue Pete vs. Oregon Duck mascot vector and basketball pieces.

StudyFlowForge — Independent Product Build

Feb. 2026 – Present

React, TypeScript, Gemini API

- Designed and shipped 18 user-facing screens end-to-end — UX flows, a reusable component library, and visual + information architecture.
- Integrated and evaluated AI-generated content (Gemini API), reviewing model outputs for accuracy and relevance before surfacing them to users — directly analogous to creating and evaluating AI training data.

Additional Experience

Firmly — Product & Engineering Intern

Jun. 2025 – Aug. 2025

- Reviewed and validated product output against written guidelines across ~15 edge cases with close attention to detail; worked independently and asynchronously across time zones.

Leadership & Activities

Engineering Projects in Community Service (EPICS) — Communications Officer & Build Lead

Aug. 2025 –

Dec. 2025

- Led a 7-person team and presented design tradeoffs and visual updates to faculty, sponsors, and stakeholders across two formal design reviews.

Skills

Design & Creative: Adobe Photoshop, Illustrator, Lightroom (transferable to GIMP, Inkscape, Krita); brand identity, logo design, print & layout design, photo retouching, typography, mockup production, UI/UX design

AI & Digital: AI-output evaluation & QA, LLM/Gemini API integration, generative-content workflows

Technical: React, TypeScript, SQL, Git/GitHub

Other: Microsoft Excel, PowerPoint, e-commerce merchandising, attention to detail, independent async remote work
