

Veer Sanyal

Sammamish, WA — 360-643-9424 — vsanyal@purdue.edu — [linkedin.com/in/veersanyal](https://www.linkedin.com/in/veersanyal)

EDUCATION

Purdue University — Mitch Daniels School of Business

West Lafayette, IN

B.S. Integrated Business and Engineering (IBE) Expected May 2028

Aug. 2024 – Present

- **Relevant coursework:** Statistics, Managerial Accounting, Engineering Design & Project Execution

EXPERIENCE

Firmly

Remote

Product and Engineering Intern

Jun. 2025 – Aug. 2025

- Shipped a PayPal checkout failure-recovery flow by clarifying requirements, aligning expected outcomes, and validating high-risk edge cases with engineering/support.
- Implemented server-side error logging (Node.js/Express) to capture request context and exception states, improving incident triage and root-cause investigation.
- Built a repeatable QA workflow (edge-case matrix + release checklist) to reduce “can’t reproduce” loops and improve verification across releases.
- Communicated status, risks, and escalation paths in handoff notes to streamline coordination across cross-functional stakeholders.

PROJECTS

Study Flow Forge (Schedule-Driven Study Planner) | *React, TypeScript, Supabase*

Feb. 2026 – Present

- Building a planner that ingests course calendars to produce dated topic schedules and exam timelines; maintains a structured database of topics, dates, and requirements.
- Designed an exam-aware prioritization engine that ranks work by due urgency, knowledge gap, difficulty match, and novelty, generating an ordered “plan” as constraints change.
- Created exception-style views for students who fall behind schedule (late/missed items) and updated plan outputs to prevent overload near deadlines.

LEADERSHIP & ACTIVITIES

Engineering Projects in Community Service (EPICS)

West Lafayette, IN

Communications Officer / Build Lead

Aug. 2025 – Dec. 2025

- Served as build lead for a rotating museum billboard prototype on a 7-person team; planned build steps, executed assembly, and troubleshooted mechanical issues to hit review milestones.
- Fabricated components using drill press, chop saw, table saw, and belt sander; iterated fit/finish to meet dimension and tolerance constraints.
- Ran engineering checks (dimensions, cut angles, tolerances) that informed manufacturability decisions (18 vs. 22 prisms) and alignment.
- Presented progress in two formal design reviews to faculty/sponsors; communicated tradeoffs, risks, and next steps to stakeholders.

Student Managed Investment Fund (SMIF)

West Lafayette, IN

Analyst

Jan. 2025 – Present

- Analyze public equities in a real-money student-managed portfolio (~\$400K AUM); synthesize research into structured recommendations for weekly discussions.
- Co-authored a 20-page report on U.S. Bancorp (NYSE: USB); owned competition, risks, EVA, and portfolio strategy sections and defended assumptions in meetings.

SKILLS

Office & Analytics: Microsoft Excel, PowerPoint, Word; SQL (PostgreSQL), basic statistics

Programming: JavaScript/TypeScript, Python

Systems & Tools: Supabase (Postgres), Git/GitHub, Node.js, Express, logging/monitoring, Adobe Acrobat Forms

Methods: Process documentation, checklists/QA workflows, cross-functional coordination
